John,

Lynne and I are really enjoying our new home. In addition, we are very pleased to have chosen you as our builder.

The process of building a new home was exciting. Given the years of experience in the building trade certainly reflects your professionalism in the quality of home you build. I would also like to point out when issues arised, you took care of them very effectively. I would also like to thank you for our close communication during the building process.

Overall, if we were to ever build a home again, you would be our contractor.

Best Regards,

Doug DuPont
