

'THE AGENCY OF CHOICE'

August 21, 2009

To all who seek a Quality Builder, please accept this as a recommendation on behalf of

Hamaker Building and Remodeling, Inc.

417 McCurry Rd.
Caledonia, IL. 61011

Here is my story

I'm a business owner in California with a second home in Poplar Grove, Illinois. In the last 27 years, I have bought, and sold 6 houses, all of which have had anything from a minor home improvement to a major remodeling (almost complete teardown) our new, semi-custom home in Illinois needed to be improved and corrected due to inadequate work performed by the previous home builder.

Taking on a project of finding and dealing with another contractor was frightening. We interviewed many builders and decided on John Hamaker of Hamaker Building and Remodeling, Inc.

From the beginning, I was impressed with what I heard but the true test would be found in the end results. John called us on a regular basis with progress reports, his crew finished the job ahead of schedule and the best thing is he came in below budget. In my dealings with John, I have found him to be very personable, honest, trustworthy, experienced, and professional.

If I was ever to entertain the thought of any home improvement, or custom built home, there would only be one person I would call, John Hamaker - period, end of conversation!
